June 30, 2006

**1. ORGANIZATION
AND SIGNIFICANT
ACCOUNTING
POLICIES:**

Karsch Capital, Ltd. (the "Fund") was formed in September 2000 pursuant to the laws of the Cayman Islands to invest and trade in securities and commenced operations on October 2, 2000. The investment manager of the Fund is Karsch Capital Management, LP (the "Investment Manager").

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America which require the use of estimates by the Investment Manager. Actual results could differ from those estimates.

Investments in securities traded on a national securities exchange or listed on the Nasdaq National Market ("Nasdaq") are valued at the last reported sales price on the primary exchange on which such securities have traded on the last business day of the year. Investments in securities traded in the over-the-counter market and not listed on Nasdaq are valued at the last reported bid price if held long, or ask price if sold short. Options listed on a national securities exchange or Nasdaq will be valued at the mean between their bid and ask prices.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses are recognized based on the specific-identification method. Dividend income and dividends on securities sold short are recorded on the ex-dividend date.

Under the current laws of the Cayman Islands, the Fund is not subject to income taxes and, accordingly, no provision has been made in the accompanying financial statements for such taxes.

The industry classifications included in the condensed schedule of investments represent the Investment Manager's belief as to the most meaningful presentation of the classification of the Fund's investments.

Assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the year-end exchange rates. Purchases and sales of investments, and income and expenses, that are denominated in foreign currencies are translated into U.S. dollar amounts on the transaction date. Adjustments arising from foreign currency transactions are reflected in the statement of income.
